

Pictet–Global Emerging Debt – Pdm HKD

Dividend Record

Pictet Asset Management, October 2021

Important Note

- This material is provided strictly for informational purposes only and is not to be used or considered as an offer, an invitation to offer or solicitation to buy, sell or subscribe for any investment products. Investment involves risk. Past performance is not a guarantee or a reliable indicator of future performance. . Before making any investment decision to invest in the Fund, investors should read the offering documents and especially the risk factors therein.
- Pictet-Global Emerging Debt (the “Fund”) seeks revenue and capital growth by investing a minimum of two-thirds of its total assets in bonds and other debt instruments issued or guaranteed by national or local governments of emerging countries and/or other issuers domiciled in emerging countries.
- Investors should note that investment in bonds and other debt instruments are exposed to liquidity risk, interest rate risk, and credit risk of the issuer. In addition, the Fund may invest in below investment grade debt securities and unrated securities of similar credit quality. Such securities may have higher risks of default and may be subject to greater levels of interest rate risk, credit risk, price volatility and liquidity risk.
- The Fund may have significant exposure to emerging markets which are generally considered to present higher political and economic risks, legal and regulatory risks, fiscal and tax risks and capital repatriation restrictions risk. The Fund's investments may be more volatile and/or less liquid.
- The Fund may invest in debt securities which may be impacted by a downgraded credit rating. Such an event may decrease the value and liquidity of the security and adversely affect the Fund's NAV.
- The Fund may have high leveraged exposure and thus, may result in significant loss or total loss.
- The Fund may use financial derivative instruments extensively for investment purposes. Such investments may involve higher degree of credit/counterparty, market and liquidity risks and may result in higher degree of volatility and substantial loss.
- The Fund may invest in RMB denominated bonds which may subject the Fund to various risks of investing in Chinese market e.g. political, tax, foreign exchange, credit rating agency, regulatory, CIBM related, QFII and RQFII related , Bond Connect related and liquidity risks.
- Dividend is not guaranteed. The Fund aims to pay monthly dividend. Dividends payable (if any) from dm distribution shares may be paid out of the capital. Investors should note that the payment of dividends out of capital represents a return or withdrawal of part of the amount they originally invested and/or any capital gains attributable to the original investment. Besides, distributions, including distributions involving the payment of dividends out of the Fund's capital, may result in an immediate reduction in the NAV per distribution share.
- This material has not been reviewed by the Securities and Futures Commission. The issuer of this material is Pictet Asset Management (Hong Kong) Limited.

⁴ "Net distributable income" means the net investment income (i.e. dividend income and interest income net of fees and expenses) attributable to the relevant share class and may also include net realized gains based on unaudited management accounts. "Net distributable income" which is not distributed in a month of a financial year will be carried forward as net distributable income for the next month within the same financial year. % of dividend paid out of net distributable income for the month = undistributed cumulative net distributable income as of the month concerned / dividend payable for the month. The calculation of the above cumulative figure is based on the financial year running from 1 October to 30 September
