

**Liquidity Solutions**  
From one of Switzerland's  
most stable  
financial institutions

Pictet Asset Management  
has been a liquidity solutions  
provider since 1997

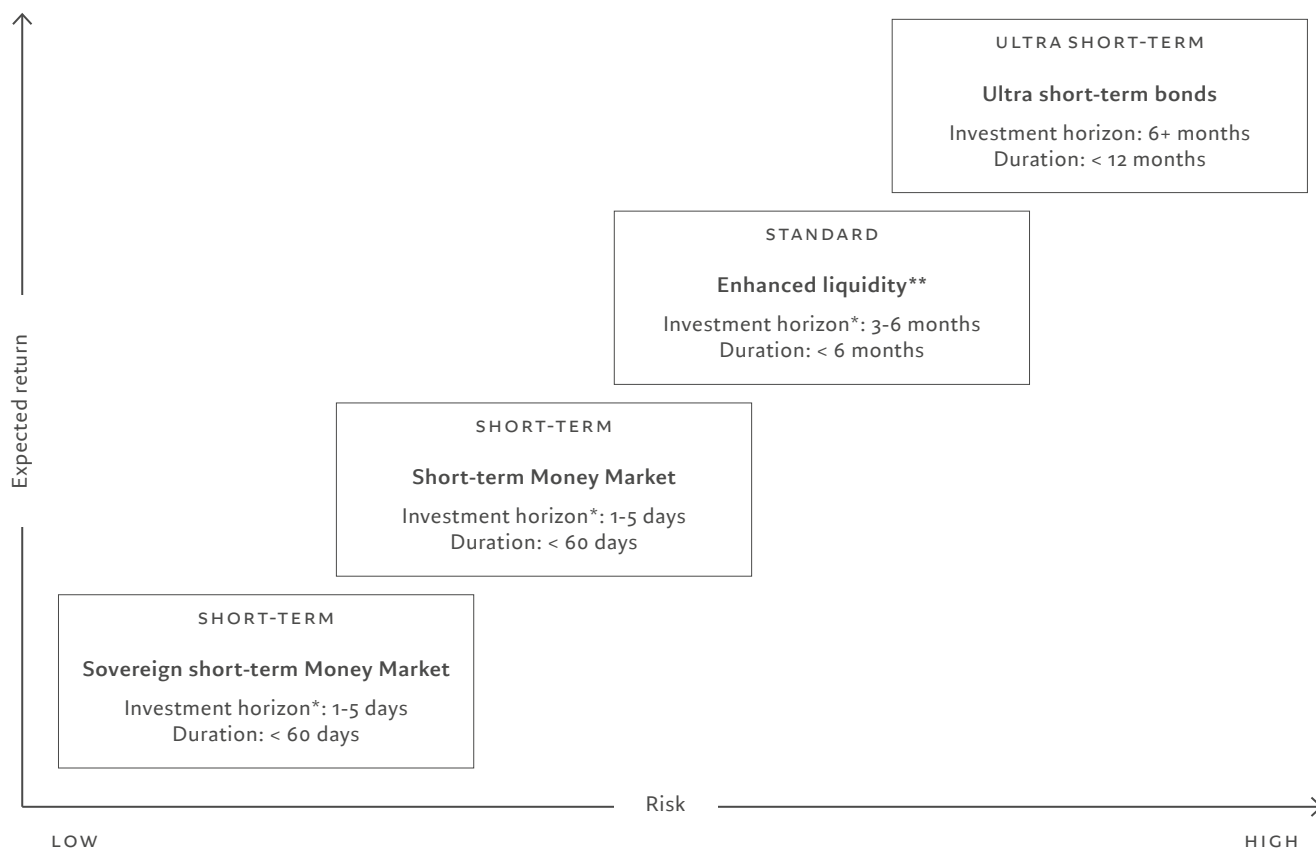

# Liquidity Solutions provider since 1997

Our liquidity solutions consist of an established range of four money market product families, domiciled across Luxembourg and Switzerland, and in various currencies.

## WHY PICTET ASSET MANAGEMENT FOR YOUR LIQUIDITY SOLUTIONS?

- Focus on **risk management** and **capital preservation**
- **Active approach** to managing client assets
- **Experienced** and stable money market team, part of a leading European asset manager
- **Strong ESG** and **corporate sustainability** credentials
- **Long & consistent track record** in delivering superior yield premiums

### Expertise across four Money Market product families

\*In normal market conditions.

\*\*For the Enhanced Liquidity strategy, we currently only have Swiss-domiciled vehicles that are registered in Switzerland and Singapore. Please contact your usual Pictet Asset Management representative for more information.

## A STABLE AND EXPERIENCED TEAM

Our money market team consists of four investment managers with an average of over 30 years of experience, of which more than 18 years at Pictet<sup>1</sup>. The team has a skill-set spanning risk management, fundamental analysis and all money market instruments.

## HOW TO INVEST WITH US

Our funds are registered with most third-party money market fund platforms.

A full list of our Luxembourg-domiciled Money Market funds is provided in the following pages of this brochure, together with key fund characteristics.

## RISK CONSIDERATIONS

The funds within our four families of money market products may be exposed to the following risks which may negatively impact their performance:

**Currency risk:** where your reference currency differs from the currency of the share class, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the reference currency and your local currency.

**Financial derivatives risk:** the leverage resulting from derivatives amplifies losses in certain market conditions.

**Sustainability risk:** the risk arising from any environmental, social or governance events or conditions that, were they to occur, could cause a material negative impact on the value of the investment.

All forms of investment involve risk. The value of investments and the income derived from them is not guaranteed and it can fall as well as rise and you may not get back the original amount invested.

Further information can be found in the funds' prospectus on [am.pictet.com](http://am.pictet.com).
